Dear Member:

The Board of Directors is comprised of members, just like you, who understand water is essential for life as we know it. The fees and rates charged to you each month are designed to cover the costs incurred to ensure we continue to have a safe and reliable source of water delivered to our homes and businesses.

We worked diligently to avoid rate increases, holding rates constant for more than five years until June 1, 2025 when rates were increased. Each year, the cost of water purchased from Rockett Special Utility District is increased due to increases in materials, fuel, insurance and other operating expenses. To ensure our water system is able to keep up with those increasing expenses, rates will be increased following an increase in the cost of wholesale water.

At the regular Rural Bardwell Water Supply Corporation, Inc. Board Meeting on July 9, 2026, the Board of Directors voted on the following rate schedule. This new rate schedule will become effective on January 1, 2027 and will be reflected on your February bill.

The cost per 1,000 gallons will increase as follows:

		OLD RATE	NEW RATE
1 – 10,000 gallons	=	\$ 8.29 per 1,000 gallons	\$ 9.73 per 1,000 gallons
10,001 – 20,000 gallons	=	\$ 9.29 per 1,000 gallons	\$10.73 per 1,000 gallons
20,001 – 30,000 gallons	=	\$10.29 per 1,000 gallons	\$11.73 per 1,000 gallons
30,001 – 50,000 gallons	=	\$12.29 per 1,000 gallons	\$13.73 per 1,000 gallons
50,001 – 100,000 gallons	=	\$14.29 per 1,000 gallons	\$15.73 per 1,000 gallons
100,001 gallons or more	=	\$16.79 per 1,000 gallons	\$17.73 per 1,000 gallons

The Board will continue to work with diligence and loyalty to the water corporation in an effort to provide the best quality drinking water at the lowest possible cost.

The Rural Bardwell Water Supply Corporation, Inc. Board Members appreciate the opportunity to serve our Members and appreciate your understanding the necessity of this rate increase.

Very truly yours,

The Rural Bardwell Water Supply Corporation, Inc. Board of Directors
